

‘ODDMENTS’ THEATRE CO PRESENTS...

Two productions, available from November 2018 to July 2019 – one for primary schools and one for additional needs schools. Below you’ll find a little something about each show.

PILGRIM’S PROGRESS

This production is based on the classic book of the same name by John Bunyan.

If you aren’t familiar with the story, it compares our life to a journey. Together we’ll discover how our lives are impacted – for the better and the worse – by the people we choose to listen to and we’ll see how God can help us too!

The production is suitable for the whole school and is 60 minutes in length. This is paired with workshops for the KS2 pupils to help them understand the themes and characters, all who relate to the type of people who may help us and mislead us in our lives.

ARK ADVENTURE

Ark Adventure is an educational exploration of the story of Noah’s ark, communicated in a way which will be engaging for those with special needs.

We believe everyone deserves the chance to see effective drama and trust that this experience will be greatly beneficial for the children.

Our production is an hour long sensory experience full of music, dance and colour and also creates the opportunity for the children to be involved in various activities including playing with water and making fruit salads. Our aim is that this experience will be enjoyable but also educational.

This production can be repeated four times throughout the day with approximately 25 children in each session, and can be specifically tailored to the needs of the children in your school. The children will also participate in various activities such as finger painting and making fruit salads which will give children an immersive theatrical experience.

Both productions cost £350.
