

We are

A community gathered in worship and prayer

A community that enjoys a shared fellowship

A community concerned to reach out, especially to the young

A community that cares for older people, especially the bereaved

A community that wants to grow

Priorities are:

Sorting out ecumenical relationships, particularly on Waterloo

Sustaining and growing those things which are life-giving and perhaps facing up to those things which are not

Sustaining our outreach of prayer and giving to others

Getting involved in schools

Improving our communication with others

Growing our pastoral outreach and involvement

Growth in the spiritual life through groups and prayer

A key thing to take on is:

A stewardship campaign – not only in terms of giving, but also in terms of discovering a shared purpose and a shared commitment to that purpose

Linked to this is a process of identifying what needs doing and who will do it

This includes looking at the whole area of administration

Can we work better together?

We are seeking to disentangle ourselves from the *United Church of Christ Apostolic (Worldwide)*, after which we will be seeking to discern how we can better work with members of Churches Together in Broadstone, with the Waterloo Fellowship and with Christ Church Creekmoor in ministry and mission on the Waterloo Estate

Measuring quality and impact

A growing and deepening faith in individuals

leading to a deepening of fellowship

expressed through an engagement with the wider community
