

## Growing Leaders

Did you know that CPAS has updated its best-selling course, Growing Leaders?

Amy White explains:

"Leadership is a key factor in the health and growth of a church. But it's not just leadership at church: we're committed to seeing Christians exercise Christ-like, fruitful leadership in every area of their lives.

"Through teaching, mentoring and application, the newly-updated CPAS Growing Leaders course focuses on character, calling, and skills to grow leaders who lead others to Christ. Over 10,000 people have taken part in the course across hundreds of churches nationwide."

To find out more watch their [short video](#) with Hannah and Olly Mears, who have run 'Growing Leaders' a number of times.

Are there people in your area who would benefit from the course? If so you can download Growing Leaders now and help Christians lead well – wherever they are.
