

15 choir robes in very good condition

These pre-loved choir robes are in very good condition, due to being made from Trevira fabric which washes easily, and dries without the need for ironing.

The colour is liturgical claret, with the 3 newest being a very slightly different shade that blends in well with all the others. Robes are loose fitting, with 11 of 'Average' size (fitting most ladies) which are three quarter length (below the knee). 4 are longer and for slightly taller ladies or young men/boys, and which are also of 'below the knee' fit. Pockets are fitted on both sides. The robes are about 10 years old, but have been very carefully looked after.

The robes have a full length zip at the front and the design allows easily for every day clothing to be worn underneath. A (ladies) white collar is displayed in the photographs, but some of these are not in good condition so only 3 are offered in the sale. However, the 3 collars supplied may be used as a pattern for new collars.

These robes could equally be worn by young men/boys, without the detachable white collar but while wearing a collar and tie instead.

Reason for sale: Church has now bought cassocks and surplices for the ladies.

Price: £120 would be appropriate (£8 each). Collect in person, or Courier delivery for £10.00.
